Dear Doctor

I have much pleasure in informing you that you were awarded a PASS on the Medical Council of Canada Evaluating Examination for graduates of foreign medical schools which you tried on September 15, 1981. Congratulations on having passed this first step in obtaining access to the Council's Qualifying Examination.

In order to be admitted to the Qualifying Examination you must submit a valid Enabling Certificate issued by a Canadian provincial medical council. A list of their addresses is enclosed. You should write to one or more of the provincial medical councils to learn what requirements you will have to fulfil to obtain an Enabling Certificate. Each province may have different requirements. Enabling Certificates are not issued automatically upon request, and remain valid for one examination only.

You are reminded that the validity of your pass standing toward entrance to the Qualifying Examination of the Medical Council of Canada is limited to five (5) years from September 1981.

Yours truly

MGen(B) J.W.B. Barr, M.D.
Registrar

Montréal, Québec.
H1X 1X9

RE: Eligibility for a rotating internship
(Conditional to the receipt of your M.D. Diploma
and ECFMG Standard certificate before July 1982.)

Dear Doctor:

This is to confirm that you are eligible for a rotating internship appointment in a Quebec hospital centre approved by the Corporation professionnelle des médecins du Québec.

As you have successfully passed the required examination in July 1981, ----- and your credentials at the Corporation are satisfactory, you may apply for an internship appointment in an approved university training programme for internship. A list of these programmes is enclosed.

I must however draw your attention to the fact that available posts for training in Québec hospital centres have been reduced due to Government regulations and the increase in the number of Québec medical graduates. Consequently, even if you are eligible for a rotating internship, you will probably not be able to obtain an appointment in a Québec hospital.

However, if you are accepted by a programme and assigned to a participating hospital centre, the latter will send you a contract together with a certificate of employment and application forms for a training card. You must immediately complete these forms and return them to the Corporation with the certificate of employment and your cheque. Upon receipt of these documents, we will study your request.

Hoping this answer will be satisfactory, I remain,

Yours truly,

Michel J. Bérard, M.D., F.R.C.S. (C)
F.A.C.S., F.A.C.O.G., F.R.C.O.G.

December 18, 1981

Dr. Reshat Memiche
3890 Mt. Royal East
Montreal, P.Q.
H1X 1X9

Dear Dr. Memiche:

It is with pleasure that I am informing you that at the meeting of the Committee for the «programme d'accueil pre-internat» for doctors with medical degrees from faculties of medicine outside Canada and the United States, you were chosen as a candidate who can enter directly into a rotating internship program. It was felt that you have enough equivalences so that you do not have to partake in the «programme d'accueil» before entering the internship. Consequently, a position has been retained for you at the McGill University Faculty of Medicine for a year of internship beginning July 1, 1982.

Would you please inform me of your first, second, and third priorities regarding the hospital at which you would like to do your rotating internship. Your choices are the Jewish General Hospital, the Montreal General Hospital, the Queen Elizabeth Hospital, the Royal Victoria Hospital, or St. Mary's Hospital. Once I have received your priorities, I will arrange interviews for you so that we can proceed with arrangements to fulfill the necessary paperwork.

I congratulate you on your acceptance and wish you a successful medical career.

Sincerely yours,

C. Nucci, M.D.

A QUI DE DROIT

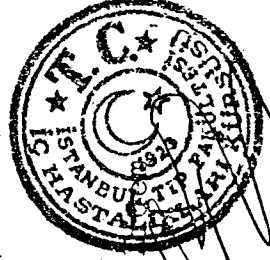

La présente est pour certifier que le docteur Reşat Memişoğlu a fait un stage de trois mois dans mon service de département de Médecine Interne.

Durant cette période, nous avons pu apprécier sa loyauté, son esprit de travail et sa conscience professionnelle qu'il saura continuer de démontrer dans n'importe quel service où on voudra l'employer.

Merci a l'avance pour ce que vous pourrez fair en sa faveur, et nous serons heureux de le recevoir de nouveau quand ses études seront terminées.

Bien à vous,

Prof. Dr. Şakir
