Doctor Reshat Memiche
1030 South Park Street, Apt. 1219
Halifax, N.S.
B3H 2W3

Dear Doctor Memiche:

I am pleased to inform you that you were successful in passing the examination for certification in internal medicine.

May I extend to you the congratulations and best wishes of the College for success and satisfaction in your professional career.

Your name has been entered in the register of certified specialists of the College. Your certification by this College is effective from the date of your final examination, that is, June 8, 1987. In the interim, this letter will serve to confirm your certification as a specialist.

If you will be practising your specialty in Canada, you should promptly notify the medical licensing authority(ies) and other appropriate authorities in whatever province(s) you are licensed to practise that you have gained certification by the Royal College in your specialty.

Your certification as a specialist entitles you to apply for admission to Fellowship in the College. We hope that all certified specialists will elect to maintain a continuing association with the College as Fellows and thereby participate actively in furthering the objectives of the College.

The relevant information on admission to Fellowship is enclosed with this letter.

Yours sincerely,

Robert F. Maudsley

To Whom It May Concern:

Re: Dr. Reshat Memiche

Dr. Memiche is in his second year of Gastrointestinal training, having completed 3 core years of Internal Medicine and the first year of his specialty training in Gastroenterology. He will complete his formal training June 30, 1988.

Dr. Memiche has already taken and passed the FRCP(C) in General Internal Medicine.

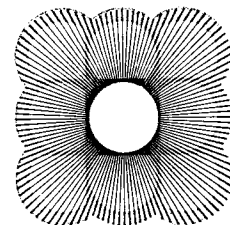

His progress is excellent and I have no doubt whatsoever that he'll complete his training with flying colors. He is showing interest in academic medicine and has already written two papers these last 6 months.

Yours sincerely,

Montreal, Quebec
H1X 1X9

Dear Dr. Memiche:

On behalf of the President, I am pleased to advise you that the Executive Committee of the Council approved on December 4, 1987, your application for admission to Fellowship in the Division of Medicine under the provisions of Articles 4.2 and 4.4 of the bylaws. Your Fellowship diploma is being prepared -- it will be mailed to you within three months.

As a Fellow you are entitled to use the designation FRCPC following your name. There are now more than 19,000 Fellows in Canada and 3,500 Fellows outside of Canada who use this designation as a standard of excellence.

So far your involvement with the College has been focused on the pre-certification phase -- the specialty training requirements, the training programs and the examinations. In the College secretariat the Office of Training and Evaluation, directed by Dr. Robert F. Maudsley, is responsible for those activities.

Activities that concern Fellows of the College are consolidated in the Office of Fellowship Affairs. As a Fellow, there are several awards for continuing medical education available to you. You can obtain details and application forms from College headquarters.

Perhaps you have already attended an annual meeting of the College, now one of the largest medical meetings in Canada. The annual meeting is organized in conjunction with 32 national specialty societies and affiliates. You will receive notices about the annual meeting and will have the opportunity to contribute to the scientific program.

....2/

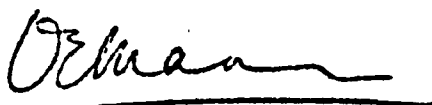

These rotations included the clinical skills necessary to complete the rotation, understanding of the basic anatomy, physiology and biochemistry of the disease system involved as well as knowledge of pathology and therapeutics in that area. He spent extra time in Radiology as a Gastroenterology Fellow.

During this time, Dr. Memiche performed his duties satisfactorily and was granted permission to sit the examinations in Internal Medicine here in Canada, which he passed on his first attempt.

Dr. Memiche has informed me that specific training in biochemistry is required by the Turkish authorities. It should be noted that the Residency Training Program requires that experience in basic sciences, included biochemistry, be included in all of the clinical rotations, in teaching sessions, etc. A certain amount of this knowledge requirement is based on individual work by the resident himself, but all of our formal teaching sessions are expected to include basic science aspects of the diseases or conditions being discussed in that lecture or seminar.

If any more information is required, please do not hesitate to contact me.

Sincerely yours,

Elizabeth Mann, M.D., FRCPC
Program Director, General Internal Medicine
Dalhousie University

Dear Doctor Simard:

Doctor Memiche has asked that I write to you in support of his application for privileges in your hospital. He has worked with our Internal Medicine group doing locums for the past year or so and we have been very impressed with him. He practices a very competent Internal Medicine and has demonstrated that he is able to handle acute intensive care emergency and general sub-acute internal medicine problems extremely well. We found him easy to work with and he is well appreciated by the hospital staff and patients. I can highly recommend him to your institution as a potential asset in your Internal Medicine Department. I would be pleased to forward any further details upon request.

Thanks for your consideration of this matter.

Chers amis,

Quel plaisir j'ai eu de voir les deux frères Mémiche dans un environnement aussi sympathique qui apprécie au plus haut point les services que vous rendez à l'hôpital et à la population de Bathurst et des environs.

La réunion de vendredi a été très intéressante car elle m'a donné l'occasion de prendre contact avec les gastroentérologues du Nouveau Brunswick ainsi qu'avec les infirmières très dévouées qui travaillent avec vous. L'hôpital, vos bureaux et la suite endoscopique mise à votre disposition me font envie. De plus, vous êtes superbement organisés au point de vue personnel paramédical.

Vos épouses vous secondent bien et semblent bien adaptées à une civilisation très différente de celle d'Istanbul. J'ai noté avec plaisir qu'elles se sont fait beaucoup d'amis.

Sous ce pli, la ventilation de mes dépenses. Je n'ai pas inclus l'hôtel car à l'heure de mon départ samedi, le bureau n'était pas ouvert.

Mes meilleures salutations.

Dear Dr. Roy,

We thank-you very much for taking the time to come to Bathurst, New Brunswick to lecture to the New Brunswick Association of Gastroenterology. We have had excellent feed-back from both the physicians and nursing staff.

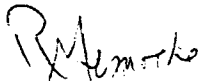

Nejat was particularly proud, boasting about his former mentor, for whom I should add he holds tremendous admiration, respect and gratitude.

The nursing staff send a special hello.

Ferah and Selime also send their best.

We thank-you once again and hope to see you soon.

Yours truly,

Reshat
